

Summer Pediatric Therapies

Continue Your Child's Therapy Progress While School is Out

Memorial offers group and individual therapies for ages 3-18. Summer Pediatric Therapies combines your child's current therapies with fun, summer group activities to allow them to build on their skills while forming social relationships. Practicing skills over their break prevents regression of the progress students have made through the school year.

With Memorial Hospital Pediatric and Speech therapies you get a great team of licensed speech-language pathologists, occupational therapists and physical therapists. As our team works to help your child reach his/her therapy goals, you will see remarkable changes in their skills and abilities.

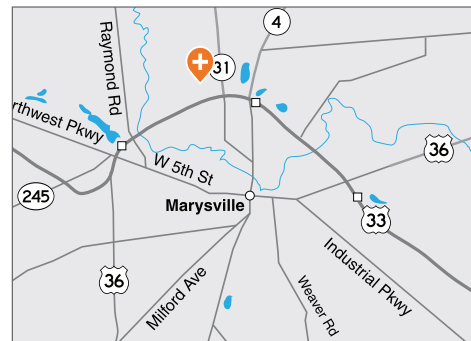

What do you need to do to register for our Summer Pediatric Therapies program or individual therapy?

- If your child is not already receiving pediatric therapies at Memorial, you need to schedule a free 15-minute screening appointment by calling (937) 578-2362. If your child receives services at school, please provide a current copy of his/her IEP.
- Screenings must be scheduled prior to the start of each session. Session 1: Deadline May 24. Session 2: Deadline June 28.

Memorial's Summer Pediatric Social Group

Speech and Occupational Therapies will be working together to provide unique approaches to address social skills in the group setting.

- Group sessions will be held on Thursdays from June 13 through August 1. Enroll in one or both 4-week sessions. Cost per 4-week session: \$65
- One-hour group sessions will be held between 10:30 a.m. and 2:30 p.m., and will be scheduled based on the age, needs and abilities of children registered.
- All services are provided by licensed medical professional therapists.
- All sessions will be offered at our location in Mill Valley.
