

# 5 Reasons To Choose Marysville Schools SACC Programs

## #1 ~ OUTSTANDING PROGRAM SAFETY

All Marysville Schools SACC programs are licensed by the Ohio Department of Education. SACC strives for and achieves 100% compliance with our annual Ohio Department of Education annual Child Day care Licensing Inspections. SACC complies with all Marysville Schools Safety regulations. Staff are background checked and trained in First Aid, CPR and AED. Parents drop off and pick up students at the SACC program in their own school building, eliminating transportation concerns.

## #2 ~ OUTSTANDING NETWORK OF CARE

The Marysville Schools SACC program is unique in that our staff is comprised of school employees and are a part of your student's school staff. We work with principals, secretaries, teachers, custodians, psychologists, nurses and other support staff every day. The Marysville Schools team of staff provides consistent and seamless care for your student before, during and after school.

## #3 ~ OUTSTANDING HOURS OF SERVICE

The Marysville Schools SACC programs are open from 6:30 a.m. until 6:00 p.m. Our Before and After School Programs operate on all regular school days and are open for school delays and early dismissals. We provide a full day SACC program on teacher in-service days, snow days and most scheduled days when school is not in session. Day Camp runs continuously through the summer months.

Marysville SACC: outstanding programs for outstanding kids!

## #4 ~ OUTSTANDING EXPERIENCED AND DEDICATED STAFF

Our SACC program has been providing Before and After School programs to the families in Marysville Schools for over 26 years! The SACC staff members are experts in children 5 to 13 years of age. Each staff member is a youth development professional that has been hand selected based on their education, experiences and other talents that they bring to the SACC program. The SACC staff is dedicated to the SACC program and is one of the most respected, most highly trained, most experienced and most qualified youth development staffs in Union County.

## #5 ~ OUTSTANDING ACTIVITY AND PROGRAM CHOICES

At every Marysville School's SACC program your student can choose from a wide variety of youth development activities. STEM, Arts and Crafts, Literature, Gross and Fine motor, cooking, and the list goes on! A daily homework time is offered during the After school program. Healthy snacks are provided in the morning and afternoon. Clubs, special events, community service projects and partnerships with volunteer groups add purpose and meaning to the SACC experience. Each program site creates their curriculum calendar including activities from our SACC Program Coordinator. Each program designs their curriculum on the talents of the SACC staff and the unique needs and interests of the students in the program.
