

## **Pay to Participate Fee Family Maximum and Income Based Reduction**

Dear Parent(s),

Below is information regarding a change to our Pay to Participate Fee Policy. It is the District's goal to enable and encourage participation in extracurricular activities for all interested students, while balancing the fiscal demands of such activities. The pay to participate fees in place are used to subsidize the salary and benefit costs of coaches/advisors, as well as travel expenses for these activities (driver salary and benefit costs, fuel). Please note that any booster fees are separate from pay to participate fees and are not a school district fee.

Effective with the beginning of the 2016-2017 school year, there is a family maximum of \$600 for pay to participate fees. Additional activities for families who have hit the \$600 cap will not incur a pay to participate fee. Further, any student on free lunch will pay a reduced pay to participate fee of \$100 with a family maximum of \$300.

If you have questions, please contact your child's building administration.

Sincerely,

Marysville Schools
